Bidders shall not be allowed to modify their bids after the opening time and date. Bid files may be examined during normal working hours, thirty (30) days after bid opening or upon recommendation for award, whichever occurs first. All questions or concerns regarding this Invitation for Bids shall be submitted by email to the Procurement Division representative specified on the cover page of this Invitation for Bids. Consideration for modification or alteration of the documents contained in this solicitation shall be requested during the specified question specified on the cover page of this Invitation for Bids.

When required the Procurement Division shall issue an addendum to the Invitation for Bids. The addendum shall be available on the aforementioned electronic portal for access by potential Bidders.

Bidders are instructed not to contact the initiating division directly. No oral interpretation of this Invitation for Bids shall be considered binding. The County shall be bound by information and statements only when such statements are written and executed under the authority of the Manager, Procurement Division.

This provision exists solely for the convenience and administrative efficiency of Orange County. No Bidder or other third party gains any rights by virtue of this provision or the application thereof, nor shall any Bidder or third party have any standing to sue or cause of action arising there from.

**3. PRICE/DELIVERY**

Price(s) bid must be the price(s) for new goods, unless otherwise specified. Any bids containing modifying or “escalator” clauses will not be considered unless specifically requested in the bid specifications.

“Acceptance” as herein used means the acceptance by Orange County after the Manager, Procurement Division or authorized agent has, by inspection or test of such items, determined that they fully comply with specifications.

**Deliveries resulting from this bid are to be performed during the normal working hours of the County.** Time is of the essence and the Contractor’s delivery date must be specified and adhered to. Should the Contractor, to whom the order or contract is awarded, fail to deliver on or before the stated date, the County reserves the right to **CANCEL** the order or contract and make the purchase elsewhere, and the Contractor shall be required to compensate the County for the difference in price paid for the alternate goods. The Contractor shall be responsible for making any and all claims against carriers for missing or damage goods. Partial shipments will be acceptable unless otherwise stated.

**4. FEDERAL AND STATE TAX**

The County is exempt from Federal and State Sales and Use Taxes for tangible personal property (Certificate of Registry for tax transactions under Chapter 32, Internal Revenue Code and Florida Sales/Use Tax Exemption Certificate). The Manager, Procurement Division will sign an exemption certificate submitted by the Contractor.

Contractors doing business with the County shall not be exempted from paying sales tax to their suppliers for materials to fulfill contractual obligations with the County, nor shall any Contractor be authorized to use the County’s Tax Exemption Number in securing such materials.

**5. ACCEPTANCE/REJECTION/CANCELLATION**

The County reserves the right to accept or to reject any or all bids and to make the award to that bidder who, in the opinion of the County, will be in the best interest of and/or the most advantageous to the County. The County also reserves the right to reject the bid of any bidder who has previously failed in the proper performance of an award or to deliver on time contracts of a similar nature or who, in the County’s opinion, is not in a position to perform properly under this award. The County reserves the right to inspect all facilities of bidders in order to make a determination as to the foregoing. The County reserves the right to waive any irregularities and technicalities and may, at its discretion, request a re-bid. Award will be made to the lowest responsive and responsible bidder as determined by the County.

The County reserves the right, and the Manager, Procurement Division has absolute and sole discretion, to cancel a solicitation at any time prior to approval of the award by the

Board of County Commissioners when such approval is required. The decision to cancel a solicitation cannot be the basis for a protest pursuant to the Orange County Code.

**6. BRAND NAME OR EQUALS/DEVIATIONS**

Unless otherwise specified, the mention of a particular manufacturer's brand name or number in the specifications does not imply that this particular good is the only one that will be considered for purchase. This reference is intended solely to designate the type or quality of good that will be acceptable. Equal offers will be considered and must include descriptive literature and/or specifications. Failure to provide descriptive literature and/or specifications with equal offers will result in the disqualification of the bid.

The determination as to whether any alternate good or service is or is not equal shall be made solely by the County and such determination shall be final and binding upon all bidders. The County reserves the right to request and review additional information to make such a determination.

Although the County provides for the consideration of alternate bids, it reserves the right to make an award in the best interest of the County. Award may not necessarily be given to the lowest bid offered.

The Bidder shall be responsible for reading very carefully, and understanding completely, the requirements and the specifications of the items bid upon. Unless the bid is in response to a "Brand Name or Equal" requirement, deviations from the specifications will only be considered if requested in writing prior to the date and time specified for receipt of bids.

Deviations, if accepted, will be specifically addressed in writing via an addendum to this Invitation for Bids. Any goods or services that are not in compliance with the specifications will not be accepted.

9. **CYCLE COMPLETION –**

- a. All work will be ordered by the County's Representative in the form of Delivery Orders. No work shall begin until a Delivery Order has been issued to the Contractor.
- b. A delivery order will be issued for each cycle or requested work. Each mowing cycle consists of twelve (12) calendar days (not including Sundays).
- c. All work performed, unless authorized by the County's Representative, shall take place between the hours of 7:00 AM and 5:00 PM., Monday through Saturday. No work shall be performed on Sundays or Federal, State, and County holidays, unless authorized by the County's Representative. The delivery order will contain a start date and a completion date. The County shall determine the start and ending dates for each cycle. **The Contractor shall not begin any cycle until authorized by the County's Representative. The Contractor shall complete all work ordered within twelve (12) calendar days (not including Sundays) from the start date on the Delivery Order. If a cycle/project is not completed by the completion date (adjusted for County authorized delays such as adverse weather conditions) and/or the Contractor does not correct any area not completed within two days after notification by the County, liquidated damages in the amount of two hundred dollars (\$200) will be assessed as specified under Special Terms and Conditions, Provision No. 8, "LIQUIDATED DAMAGES".** The total number and timing of the cycles will depend upon the growth conditions during the season. 10. **SCHEDULE AND ROUTE –**

- a. Areas covered by this contract shall be maintained regularly within each cycle so they are not neglected for long periods. The County will release cycles under this contract once every twelve (12) calendar days (not including Sundays) as needed.

The Contractor shall determine their schedule and route based on available resources (personnel and equipment). The Contractor shall also take into consideration differences in growing seasons (summer/winter) to develop the work schedule.**
- c. **The County's Representative reserves the right to adjust the maintenance frequency during the slow growing season by delaying the release of the cycles.**

During this time, areas shall still be maintained within the specified twelve (12) calendar days (not including Sundays) as submitted and approved on the work plan.

- d. Submitted work plan (schedule and route) shall not be changed to adjust for growth conditions during different seasons. Once determined and submitted to the County, the maintenance schedule shall be locked and no changes shall be made without County’s approval. For example, if the Contractor determines that it would take their crews six (6) calendar days (not including Sundays) to complete all contracted areas, the maintenance schedule shall be locked at six (6) calendar days (not including Sundays) and shall continue to be six (6) calendar days (not including Sundays) regardless of growing conditions. However, the County will only release cycles once every twelve (12) calendar days (not including Sundays). Unless otherwise authorized by the County’s Representative, areas covered under this contract shall not be neglected for more than three (3) weeks (inclusive of the 2 weeks (12 calendar days (not including Sundays)) maintenance cycle. Delays on a previous cycle shall not affect operations on a subsequent cycle.

The following illustrations of ideal maintenance and maximum allowable (with authorized delays, as specified) schedules for this contract are provided for guidance:

The Contractor shall consult with the County’s Representative prior to any schedule variance. The Contractor shall immediately contact the County’s Representative when circumstances beyond their control that could alter the schedule or route for the cycle arise. The County’s Representative will verify those circumstances and will determine if changes to the schedule and/or route for the cycle are warranted. Based on the conditions, the County’s Representative could authorize modifications to the completion date for the cycle if applicable.

11. **LIQUIDATED DAMAGES** – As previously stated, areas covered under this contract shall be maintained once every two (2) weeks (equivalent to 12 calendar days (not including Sundays)), unless otherwise authorized by the County’s Representative.   - b. **The Contractor does not correct any deficient area within two (2) calendar days (not including Sundays) after notification from the County, unless otherwise authorized by the County’s Representative** - These liquidated damages will start the third work day after notification and will continue for each work day thereafter until reported deficiencies are corrected per contract specifications.
  - c. **The Contractor does not maintain contracted areas as specified and agreed on the submitted work plan (as specified above)** - These liquidated damages will start the first work day the contractor deviates from the approved plan and will continue for each work day thereafter until affected areas are maintained as required on the work plan.
12. **The Contractor will submit a work schedule prior to beginning work under the contract.** The Contractor will consult with the County’s Representative prior to any schedule variance. The notification will occur the day before the day of the scheduled variance and must be agreed to by the County’s Representative.
  13. **Congested or unusual conditions** - Due to congested traffic or unusual conditions, the Contractor may be required to remove their operation from the right-of-way and County property at the discretion of the County’s Representative. **If the Contractor is required to remove their operation due to congested traffic, inclement weather (heavy rain, lightning, hail, tropical storm, hurricane, etc.) or other unusual conditions before 12:00 P.M. (noon), the County will consider allowing an additional one-half (1/2) day be added to the performance period, otherwise no adjustment will be made to the performance period. The Contractor shall make an immediate written application for this (during event) via email; the County’s Representative will determine and authorize such award. The County will verify alleged conditions in the area prior to authorization. Once approved, the County will modify the completion date, accordingly, for the cycle and will notify the Contractor.**

**If the Contractor is required to remove their operation as a result of inclement weather after 12:00 P.M (noon) for an excessive number of days the County will consider allowing additional time to the performance period. The Contractor shall document in writing via email to the County's Representative any inclement weather after 12:00 PM (noon) affecting their maintenance operations. The Contractor shall also include pictures and other pertinent documentation for review and consideration. The County's Representative will determine and authorize such award based on Contractor's written notifications and supporting documentation submitted for this. The County will notify the Contractor on final decision and will modify the completion date, accordingly, for the cycle.**

14. **DAILY REPORTS** - The County's Representative will be entitled at all times to be advised, at his/her request, as to the status and details of work being completed by the Contractor in the format he/she requires. The Contractor shall maintain coordination with the County's Representative at all times. Either party may request and be granted a conference upon request in a timely manner. The County utilizes a standard reporting form that will be provided to the successful bidder upon contract award. **The Contractor shall inform the County's Representative by email daily as to the locations to be worked and the areas completed the previous day.**

The County reserves the rights to deny payment for the whole area if one or more of the items listed above are found deficient and not corrected during the mowing cycle.**
  
19. **MULTIPLE CONCURRENT CONTRACTS - Due to the nature and scope of this type of contract, in the event that the lowest bidder is determined to be the lowest bidder for another subsequent landscape/mowing contract or already has a landscape/mowing contract, a Management Plan shall be submitted to the County within ten (10) calendar days of Notice of Award and shall contain detailed information on personnel, equipment, and schedules for each contract held by the Contractor. The total number and timing of the cycles will depend upon the growth conditions during the season. The Contractor shall be compensated at the unit price multiplied by the actual number of cycles completed unless otherwise specified.
- D. This contract requires a maximum of twenty-four (24) mowing cycles, as needed. It also includes a maximum of two (2) cycle of fertilization of turf, a maximum of two (2) cycles of tree maintenance, and a maximum of six (6) cycles of additional litter removal to be accomplished on an annual basis. A written Delivery Order will be issued to the Contractor each time there is such a need. **This requirement extends beyond the routine litter removal required during regular mowing operations.**

**There are no guarantees as to the quantities or frequencies of items included on this contract.**

2. **EQUIPMENT** – The Contractor shall ensure all equipment used in the performance of the contract on County property is in good safe working order and properly maintained in order to protect the operator and the public. 4. **MOWING – Mowing, edging, litter removal, herbicide treatment, grass clippings removal, and brush control are included under the line item unit price for Mowing, as specified on the Bid Response Form.**

Regular mowing under this contract is generally limited to mowing areas of shoulders, front and back slopes of less than or equal to three-to-one (3:1) slope, drainage easements, dry and wet roadside swale bottoms, median islands and various width utility strips and similar areas. Slope mowing, which is also a contract requirement, is generally limited to slopes greater or steeper than three-to-one (3:1) and are relatively inaccessible to the use of conventional mowing equipment (e.g., steep slopes, canal/ditch banks and shores, bridge/overpass banks, etc.). These types of areas will normally require equipment specifically designed for this type of work. When slope mowing is performed, it shall incorporate the use of string trimmers to protect the integrity of the slope and prevent damage to the turf.

Sign posts, guardrails, trees, canal outfall structures, fences, shrubs, plants, light poles, utility flags or other such obstacles to mowing will be hand mowed or trimmed around as necessary to present a groomed appearance. Top of vegetation on wet bottom swales must be cut-off to the water's edge/level. Particular attention shall be paid to planted areas. Any damage that occurs to plants, trees, shrubs, mulched beds, tree rings, sprinkler heads, etc., shall be repaired or restored before the cycle is completed at the Contractor's expense. Mowing shall also include grass clippings and litter removal, edging, and herbicide treatment. **These costs shall be included in the unit price for mowing.**

A. **Quality** – All cutting shall be performed in such a manner to produce a stand of mowed grass or vegetation cut uniformly with no streaks or scalping. The mowing equipment shall be set up such that the height of the turf cut will be three (3) inches, plus or minus one (1) inch. In the event the Contractor damages the turf, curbs, or pavement, he/she shall be responsible, at his/her own expense, for restoring it to its original condition and/or replacement thereof, prior to the end of the cycle. This also includes sign structures, mailboxes, appurtenances, etc.

All appurtenances shall be hand-mowed or trimmed around by the Contractor as necessary to present a well-groomed appearance. Appurtenances shall include but not be limited to, sign posts and bases, delineator posts, fences, guardrail or barrier walls, end walls, pipes, drainage structures, poles, canal control structures, guys, landscape

areas, etc.

1. **Quantity and Frequency** – The County’s Representative will determine when to begin each mowing cycle. The number and timing of the cycles will depend upon the growth conditions of the grass during the season. A maximum of twenty-four (24) cycles will be ordered during the maintenance period. The Contractor shall be compensated at the unit price per acre times the acreage completed in each mowing cycle.
2. **Limitations of Operation** – When mowing within ten (10) feet of a traveled roadway, all equipment shall be operated in the direction of the flow of traffic. This provision does not apply when flaggers and warning signs in accordance with the Manual on Uniform Traffic Control Devices protect the specific work site.

When boom-type slope mowers are operated on the shoulder, flagging operations procedures shall be followed to warn other traffic and assist the operations. Warning signs shall be placed in accordance with the most current edition of the Florida Department of Transportation's "Roadway and Traffic Design Standards" for Design, Construction, Maintained Systems and the "Manual on Uniform Traffic Control Devices for Streets and Highways." When mowers are crossing the traveled roadway or bridges, the Contractor shall use flaggers following applicable flagging operation procedures.

When necessary for mowing machines to cross bridges with full width shoulders on the right, the crossing should be made on the shoulder. All bridges should be crossed with extreme care and operations planned to reduce such crossings to a minimum. When necessary for mowing machines to cross the traveled roadway, a location shall be selected that provides an unobstructed sight distance of five hundred (500) feet. The operator shall stop before crossing the roadway and permit closely approaching vehicles to pass before crossing. Operations shall be planned to minimize crossings. Equipment left on the right-of-way or County property after designated work hours shall be placed outside the clear and recovery area and shall be the sole responsibility of the Contractor. If equipment is left on the right-of-way, it shall be marked with a barricade etc. and with approved steady burning amber lights.

All service and supply operations shall be conducted outside the clear and recovery area. No supply vehicles shall enter the private property for any purpose. No service vehicle shall enter the private property unless necessary to repair or remove inoperable equipment.

- B. **Litter Removal** – All litter and debris shall be removed prior to and upon completion of a mowing cycle. Litter and debris removal includes the pickup, removal, and disposal from the right-of-way and County property of any obstacle such as wood, signs, tires, cans, etc., which cannot be traversed by the mowing equipment. It will also be the Contractor’s responsibility to remove any item such as bags of trash, newspapers, magazines, food containers, boxes, sheets of paper, etc., which will be torn, ripped, scattered or further subdivided by the mowers, which will result in an objectionable appearance. **The cost of litter removal shall be included in the unit price for mowing.**
- C. **Clippings Removal** – All grass clippings that are not uniformly distributed, and

detract from the appearance of the mowing operation shall be removed from the job site by the Contractor, upon completion of the mowing operation to allow for a neat and clean appearance after completion. The Contractor shall remove and dispose of all grass clippings from the pavement, fence lines, sidewalks, curbs and curb inlets located within the limits of the project. **The cost of grass clipping removal shall be included in the unit price for mowing.**

The grass clipping removal shall be performed in conjunction with the mowing cycle. It is the responsibility of the Contractor to maintain the inlet openings free from the debris generated during their right-of-way mowing operation. **Grass clippings shall not be blown into drains or storm drain inlets. Failure to adhere to this shall result in the Contractor, at his/her own expense within two (2) calendar days (not including Sundays), jetting out these pipes and drains or reimbursing the County for the clean up effort carried out by County personnel.**

- D. **Brush Control** – During each cycle the Contractor shall be responsible for cutting and removing brush and plant growth up to two (2) inches in diameter and up to a seven (7) feet height along right-of-way, undeveloped lots or properties and along fence lines and walls so it does not encroach onto the County’s right-of-way. Areas behind power poles shall be mowed at least one mower pass to the right-of-way line. This work will be performed in conjunction with the mowing cycle. **The cost of brush control shall be included in the unit price for mowing.**

The Contractor shall remove sucker growth and dead material from the bases of all trees at soil level to include the trunk lines. Sucker growth shall also be removed from the soil line to the main branches. The contractor shall report any unusual hazard to County’s Representative. The contractor shall also spray the mulch ring around the trees with herbicide without harming the trees. **The cost of sucker growth, herbicide and dead material removal shall be included in the unit price for mowing.**

- E. **Edging** - Edging encompasses the removal of all weeds, sand, vegetation, debris and plant material by the Contractor from all edges including but not limited to the following structures: sidewalks, paved approaches, asphalt paved roadway edges and concrete paved roadway edges that do not have curb, and curbs to maintain these areas in an attractive and manicured condition. **Edging encompasses the removal of growth mechanically and manually.**

**NOTE: Areas specified for edging shall not be treated with herbicide.**

1. **Quantity and Frequency** - Edging shall be performed in conjunction with the mowing cycle. **The cost of edging shall be included in the unit price for mowing.**
2. **Method of Operations** - The edging of sidewalks, paved approaches, asphalt paved roadway edges and concrete paved roadway edges that do not have curb, and curbs shall create a distinct void; approximately one-half (1/2) inch horizontally between the structure and the turf. String trimmers shall **not** be used in edging. Edging also includes the removal of all sand and debris from the areas designated to be edged.

Upon completion of edging by the Contractor, no growth, sand or debris shall

touch any of the structures designated to be edged. The Contractor from the areas designated for edging shall remove all sand and debris. The cost of this removal and disposal shall be included in the unit price for mowing.

3. **Quality** - Plant growth, sand, and debris shall be removed from all specified areas to provide a neatly groomed and manicured appearance in accordance with the specifications. If at any time, the work is deemed unsatisfactory by the County's Representative, the services shall be repeated at no additional cost to the County, all in an effort to bring the site to a satisfactory condition.

- F. **Herbicide Treatment** - Herbicide treatment encompasses the treatment of all grass, weeds, tree mulch rings, openings, gutters, asphalt paved areas, ramps, divider walls, guardrails, bridge embankments, and bridge supports with an approved herbicide to maintain these areas in an attractive and manicured condition. The herbicide treatment shall also include the treatment of all expansion joints and cracks located on sidewalks, curbs, concrete medians, and paved approaches.

All herbicide used shall contain the active ingredient glyphosate (e.g. as in Roundup), applied in accordance with the manufacturer's label directions. The herbicide mixture shall contain a colored spray indicator to mark the areas treated. **The color indicator shall be used to verify herbicide treatment.**

A valid Commercial Applicator License from the Florida Department of Agriculture and Consumer Services Pesticide Certification Office issued in the name of the Contractor's company or in the name of an active employee in the Contractor's company.

**NOTE: Areas designated to be edged will not be treated with herbicide.**

1. **Quantity and Frequency** – Herbicide treatment shall be performed in conjunction with the mowing cycle. **The cost of herbicide treatment shall be included in the unit price for mowing.**
2. **Method of Operations** - Upon completion of herbicide treatment by the Contractor, no growth shall remain on any of the areas designated to be treated. The spray pattern for herbicide treatment shall be six (6) inches, with the exception of fence lines and divider walls. The spray pattern for fence lines and divider walls shall be twelve (12) inches inside the right-of-way line.

Approximately ten (10) days after the application of herbicides, fences and divider walls shall be hand trimmed by the Contractor to remove all dead vegetation. All vegetation shall be removed and disposed of by the Contractor. Upon completion of the trimming, no unwanted vegetation shall touch any part of the fences and divider walls. All dead vegetation shall be removed from all other areas sprayed, including sidewalk expansion joints, curbs, gutters, concrete medians, inlet openings, etc. **The cost of the removal and disposal of all plant growth shall be included in the unit price for mowing.**

3. **Limitation of Operations** - The Contractor shall abide by all rules, laws, ordinances and statutes of the Federal Government as well as that of the State and County having jurisdiction pertaining to the handling, storage and application of herbicides. The Contractor at his/her expense shall replace plants, grass and trees

damaged by the improper use of herbicides. Replacements shall be of the same size and type of those damaged.

4. **Quality** - If at any time, the herbicide treatment is not in accordance with the specifications, the services shall be repeated at no additional cost to the County.
5. **MAINTENANCE OF PLANTED BEDS – Encompasses maintaining newly planted beds as well as established older planted beds. This maintenance includes litter removal, weed removal, fertilizing (three (3) times annually), the spraying of insecticides and fungicides (when needed), pruning and trimming of all desired plant life within these beds.**

The Contractor shall inspect all planting beds within the designated boundaries during each cycle. The Relationship Disclosure Form (form OC CE 2D and form OC CE 2P) is a form created pursuant to the County's Local Code of Ethics, codified at Article XIII of Chapter 2 of the Orange County Code, to ensure that all development-related items and procurement items presented to or filed with the County include information as to the relationship, if any, between the applicant and the County Mayor or any member of the Board of County Commissioners (BCC). The form will be a part of the backup information for the applicant's item.

**WHY ARE THERE TWO RELATIONSHIP DISCLOSURE FORMS?**

Form OC CE 2D is used only for development-related items, and form OC CE 2P is used only for procurement-related items. The applicant needs to complete and file the form that is applicable to his/her case.

**WHO NEEDS TO FILE THE RELATIONSHIP DISCLOSURE FORM?**

Form OC CE 2D should be completed and filed by the owner of record, contract purchaser, or authorized agent. In all cases, the person completing the form must sign the form and warrant that the information provided on the form is true and correct.

**WHAT INFORMATION NEEDS TO BE DISCLOSED ON THE RELATIONSHIP DISCLOSURE FORM?**

The relationship disclosure form needs to disclose pertinent background information about the applicant and the relationship, if any, between, on the one hand, the applicant and, if applicable, any person involved with the item, and on the other hand, the Mayor or any member of the BCC.

In particular, the applicant needs to disclose whether any of the following relationships exist: (1) the applicant is a business associate of the Mayor or any member of the BCC; (2) any person involved with the approval of the item has a beneficial interest in the outcome of the matter *and* is a business associate of the Mayor or any member of the BCC; (3) the applicant is a relative of the Mayor or any member of the BCC; or (4) the Mayor or any member of the BCC is an employee of the applicant. (See Section 2-454, Orange County Code.)

In most cases, the initial form needs to be filed when the applicant files the initial development-related project application or initial procurement-related forms. However, with respect to a procurement item, a response to a bid will not be deemed unresponsive if this form is not included in the initial packet submitted to the Procurement Division.

If changes are made after the initial filing, the final, cumulative Relationship Disclosure Form needs to be filed with the appropriate County Department or County Division processing the application not less than seven (7) days prior to the scheduled BCC agenda date so that it may be incorporated into the BCC agenda packet. When the matter is a discussion agenda item or is the subject of a public hearing, and an update has not been made at least 7 days prior to BCC meeting date or is not included in the BCC agenda packet, the applicant is obligated to verbally present such update to the BCC when the agenda item is heard or the public hearing is held. When the matter is a consent agenda item and an update has not been made at least 7 days prior to the BCC meeting or the update is not included in the BCC agenda packet, the item will be pulled from the consent agenda to be considered at a future meeting.

**FREQUENTLY ASKED QUESTIONS (FAQ)  
ABOUT THE  
SPECIFIC PROJECT EXPENDITURE REPORT**  
*Updated 3-1-11*

**WHAT IS A SPECIFIC PROJECT EXPENDITURE REPORT (SPR)?**

A Specific Project Expenditure Report (SPR) is a report required under Section 2-354(b) of the Orange County Lobbying Ordinance, codified at Article X of Chapter 2 of the Orange County Code, reflecting all lobbying expenditures incurred by a principal and their authorized agent(s) and the principal's lobbyist(s), contractor(s), subcontractor(s), and Contractor(s), if applicable, for certain projects or issues that will ultimately be decided by the Board of County Commissioners (BCC).

Matters specifically exempt from the SPR requirement are ministerial items, resolutions, agreements in settlement of litigation matters in which the County is a party, ordinances initiated by County staff, and some procurement items, as more fully described in 2.20 of the Administrative Regulations.

Professional fees paid by the principal to his/her lobbyist for the purpose of lobbying need not be disclosed on this form. (See Section 2-354(b), Orange County Code.)

**WHO NEEDS TO FILE THE SPR?**

The principal or his/her authorized agent needs to complete and sign the SPR and warrant that the information provided on the SPR is true and correct.

A principal that is a governmental entity does not need to file an SPR.

**HOW ARE THE KEY RELEVANT TERMS DEFINED?**

*Expenditure* means "a payment, distribution, loan, advance, reimbursement, deposit, or anything of value made by a lobbyist or principal for the purpose of lobbying. This may include public relations expenditures (including but not limited to petitions, flyers, purchase of media time, cost of print and distribution of publications) but does not include contributions or expenditures reported pursuant to Chapter 106, Florida Statutes, or federal election law, campaign-related personal services provided without compensation by individuals volunteering their time, any other contribution or expenditure made by or to a political party, or any other contribution or expenditure made by an organization that is exempt from taxation under 26 U.S.C. s. 527 or s. 501(c)(4)." (See Section 112.3215, Florida Statutes.) Professional fees paid by the principal to his/her lobbyist for the purpose of lobbying are not deemed to be "expenditures." (See Section 2-354, Orange County Code.)

*Lobbying* means seeking "to encourage the approval, disapproval, adoption, repeal, rescission, passage, defeat or modification of any ordinance, resolution, agreement, development permit, other type of permit, franchise, vendor, Contractor, contractor, recommendation, decision or other foreseeable action of the [BCC]," and "include[s] all communications, regardless of whether initiated by the lobbyist or by the person being lobbied, and regardless of whether oral, written or electronic." (See Section 2-351, Orange County Code.) Furthermore, *lobbying* means communicating "directly with the County Mayor, with any other member of the [BCC], or with any member of a procurement committee." (See Section 2-351, Orange County Code.) *Lobbying* also

means communicating “indirectly with the County Mayor or any other member of the [BCC]” by communicating with any staff member of the Mayor or any member of the BCC, the county administrator, any deputy or assistant county administrator, the county attorney, any county department director, or any county division manager. (See Section 2-351, Orange County Code.) *Lobbying* does not include the act of appearing before a Sunshine Committee, such as the Development Review Committee or the Roadway Agreement Committee other than the BCC.

*Principal* means “the person, partnership, joint venture, trust, association, corporation, governmental entity or other entity which has contracted for, employed, retained, or otherwise engaged the services of a lobbyist.” *Principal* may also include a person, partnership, joint venture, trust, association, corporation, limited liability corporation, or other entity where it or its employees do not qualify as a lobbyist under the definition set forth in Section 2-351 of the Orange County Code but do perform lobbying activities on behalf of a business in which it has a personal interest.

#### **DOES THE SPR NEED TO BE UPDATED IF INFORMATION CHANGES?**

Yes. It remains a continuing obligation of the principal or his/her authorized agent to update the SPR whenever any of the information provided on the initial form changes.

#### **WHERE DO THE SPR AND ANY UPDATES NEED TO BE FILED?**

The SPR needs to be filed with the County Department or County Division processing the application or matter. If and when an additional expenditure is incurred subsequent to the initial filing of the SPR, an amended SPR needs to be filed with the County Department or County Division where the original application, including the initial SPR, was filed.

#### **WHEN DO THE SPR AND ANY UPDATES NEED TO BE FILED?**

In most cases, the initial SPR needs to be filed with the other application forms. The SPR and any update must be filed with the appropriate County Department or County Division not less than seven (7) days prior to the BCC hearing date so that they may be incorporated into the BCC agenda packet. (See Section 2-354(b), Orange County Code.) When the matter is a discussion agenda item or is the subject of a public hearing, and any additional expenditure occurs less than 7 days prior to BCC meeting date or updated information is not included in the BCC agenda packet, the principal or his/her authorized agent is obligated to verbally present the updated information to the BCC when the agenda item is heard or the public hearing is held. When the matter is a consent agenda item and an update has not been made at least 7 days prior to the BCC meeting or the update is not included in the BCC agenda packet, the item will be pulled from the consent agenda to be considered at a future meeting.

#### **WHO WILL BE MADE AWARE OF THE INFORMATION DISCLOSED ON THE SPR AND ANY UPDATES?**

The information disclosed on the SPR and any updates will be a public record as defined by Chapter 119, Florida Statutes, and therefore may be inspected by any interested person. Also, the information will be made available to the Mayor and the BCC members. This information will accompany the other information for the principal’s project or item.

## LEASED EMPLOYEE AFFIDAVIT

I affirm that an employee leasing company provides my workers' compensation coverage. I further understand that my contract with the employee leasing company limits my workers' compensation coverage to enrolled worksite employees only. My leasing arrangement does not cover un-enrolled worksite employees, independent contractors, uninsured sub-contractors or casual labor exposure.

I hereby certify that 100% of my workers are covered as worksite employees with the employee leasing company. I certify that I do not hire any casual or uninsured labor outside the employee leasing arrangement. I agree to notify the County in the event that I have any workers not covered by the employee leasing workers' compensation policy. In the event that I have any workers not subject to the employee leasing arrangement, I agree to obtain a separate workers' compensation policy to cover these workers. I further agree to provide the County with a certificate of insurance providing proof of workers' compensation coverage prior to these workers entering any County jobsite.

I further agree to notify the County if my employee leasing arrangement terminates with the employee leasing company and I understand that I am required to furnish proof of replacement workers' compensation coverage prior to the termination of the employee leasing arrangement.

I certify that I have workers' compensation coverage for all of my workers through the employee leasing arrangement specified below:
