NO. OF NOTICES: 40

Commentaries: Two (2) in favor and one (1) in opposition

Staff Recommendation: Staff gave a brief presentation on the case, covering the location, site plan, previous variance approval in the area, and photographs. Lastly, staff recommended approval subject to the condition as outlined in the staff report.

The following person(s) addressed the Board:

Speaker(s): William Barfield, Applicant

No one spoke in favor or in opposition to the request at the public hearing.

BZA Discussion: The BZA recognized that the property was a double lot in an area of large houses with extremely large setbacks compared to the other lots. Additionally, the other house that was granted the height variance did not look out of place. The BZA concurred with the staff recommendation.

BZA Action: A motion was made by Carolyn Karraker, seconded by Deborah Moskowitz and unanimously carried to **APPROVE** the Variance request in that the Board made the finding that the requirements of Orange County Code, Section 30-43(3) have been met; further, said approval is subject to the following conditions:

1. Development in accordance with site plan dated April 14, 2017, and all other applicable regulations. Any deviations, changes, or modifications to the plan are subject to the Zoning Manager's approval. The Zoning Manager may require the changes be reviewed by the Board of Zoning Adjustment (BZA) for administrative approval or to determine if the applicant's changes require another BZA public hearing;
2. Pursuant to Section 125.022, Florida Statutes, issuance of this development permit by the County does not in any way create any rights on the part of the applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the County for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law. Pursuant to Section 125.022, the applicant shall obtain all other applicable state or federal permits before commencement of development; and
3. Any deviation from a Code standard not specifically identified and reviewed/addressed by the Board of Zoning Adjustment shall be resubmitted for the Board's review or the plans revised to comply with the standard.

Commentaries: Two (2) in favor and one (1) in opposition

Staff Recommendation: Staff noted that the surrounding land uses included an elementary

school to the north and a stormwater retention pond to the west, after which there were undevelopable wetlands. The lot was irregularly shaped, which resulted in only the southern portion of the deck being located on the property line, while the northern portion was approximately three (3) feet off the property line. The majority of the lot was covered by the residence, which is pushed back to the rear of the lot, leaving minimal room for amenities such as a pool/spa and screen enclosure. Additionally, a variance identical to this request had been approved in 2013, for a property to the south end of Montalcino Drive. Lastly, staff recommended approval subject to the condition as outlined in the staff report.

The following person(s) addressed the Board:

Speaker(s): Angella Phipps, wife of Applicant

No one spoke in favor or in opposition to the request at the public hearing.

BZA Discussion: The BZA noted that the lot was irregularly shaped, and that due to the size of the houses in this neighborhood, there was minimal room for improvements in the rear yard. Further, the request would not have any adverse impact on anyone. Thus, the BZA concurred with the staff recommendation.

BZA Action: A motion was made by Carolyn Karraker, seconded by Deborah Moskowitz and unanimously carried to **APPROVE** the Variance requests in that the Board made the finding that the requirements of Orange County Code, Section 30-43(3) have been met; further, said approval is subject to the following conditions:

1. Development in accordance with site plan dated April 17, 2017, and all other applicable regulations. fence, site plan, previous variance denial in the area, and photographs. Staff recommended approval subject to the condition as outlined in the staff report.

The following person(s) addressed the Board:

Speaker(s): Mike Lopez, Applicant

The applicant explained that the property had been vacant for three (3) years and had become a dumping ground with crime and vagrants, and further, indicated that a four (4) foot fence would not keep anyone out of the subject property. In addition, the applicant stated the neighbors were in favor of the fence.

No one spoke in favor or in opposition to the request at the public hearing.

BZA Discussion: The BZA confirmed the subject property was not a corner lot and that a chain link fence would not affect visibility. The BZA affirmed that a five (5) foot fence would provide the necessary security, and advised the applicant to get proper permits. Therefore, the BZA concurred with the staff recommendation.

BZA Action: A motion was made by Eugene Roberson, seconded by Deborah Moskowitz and unanimously carried to **APPROVE** the Variance request in that the Board made the finding that the requirements of Orange County Code, Section 30-43(3) have been met; further, said approval is subject to the following conditions:
