B. Additions, Deletions and Clarifications:

1. Question: Please confirm the treatment of the soil beneath the Bermuda sod that will be installed on the existing football field.

Answer: The goal for the existing football field is to level the field in the northwest corner. This task likely involves the removal of the existing grass, adding top soil to bring to grade, and installing the new sod on the disturbed portion of the existing football field. Only work needed to level the field should be performed. Minimal work or treatment of the soil layers below the existing grass level is required. For the top soil portion of the work please refer to Section 02820 and the Athletic Field Detail on Sheet 6

2. Question: Is it correct to assume only the top 6" of the detail on Sheet 6 and Specification Section 02820 will apply to the football field?

Answer: The goal for the existing football field is to level the field in the northwest corner. Additional top soil, grading and new sod on the disturbed portion of the existing football field should be all that is needed. It is correct to assume that only the top 6-inches of the detail on Sheet 6 and the associated information in Section 02820 would apply.
