

Y15-108SS

Orange County, Florida is interested in purchasing electronic key box that utilizes RFID (Radio-Frequency Identification) technology in the key tag (Prof Fob). To date, research within the industry has indicated to the County that the Key Tracer RFID electronic Key Control system provided by CTS, Inc. dba Key Tracer Systems, Inc. is the only program that fulfills this requirement.

Minimum Specifications on the equipment features and capabilities are listed below:

1. Electronic Key system
2. Provide customized reports
3. Establish restricted access levels
4. Use Proximity Cards with pin numbers for access
5. Provide full accountability for our key assets
6. Integrate the access levels with a staff members job title with automated updating
7. Have the ability to manage emergency codes for multiple release of key assets
8. Have the ability to prevent a key asset from leaving the compound through RFID readers.
9. Have the ability to scan an area to find a lost key asset using RFID scanners.
10. Have the choice menus to allow individual staff members pull up only the keys that staff member has access to.

Any vendor meeting the County's requirements is invited to contact Maria Alvarez by phone at (407) 836-5636 or by email at maria.alvarez@ocfl.net. This information will be available for review until **5:00 PM, May 29, 2015**.
