

Y16-111-SS

Orange County, Florida is interested in purchasing Smiths Detection Gas I.D. equipment for detecting explosives, narcotics and hazardous material. This equipment must be Smiths Detection. To date, research within the industry has indicated to the County that Advanced Technologies of Southwest Florida, LLC is the sole sales representative of this requirement in Florida. Any vendor that wishes to view the documentation to determine if they can meet the County's requirements is invited to contact Linda Carson by email at Linda.Carson@ocfl.net. This information will be available for review until July 29, 2016 at 5:00 P.M.
