

June 29, 2018
BOARD OF COUNTY COMMISSIONERS
ORANGE COUNTY, FLORIDA

Addendum No. 2/RFP Y18-810-CH

**WOODBURY ROAD ROADWAY CONCEPTUAL ANALYSIS (RCA) STUDY (FROM
LAKE UNDERHILL ROAD TO STATE ROAD 50)**

Proposal Opening Date: July 12, 2018

This addendum is hereby incorporated into the bid documents of the project referenced above. The following items are clarifications, corrections, additions, deletions and/or revisions to and shall take precedence over the original documents. Additions are indicated by underlining, deletions are indicated by strikethrough (~~strikethrough~~).

1. The Proposal Opening Date shall remain as follows:

July 12, 2018 at 2:00 P.M.

2. Note the REVISION to Exhibit A, Scope of Services, Section 3.8 as follows:

3.8 Soil Survey and Geotechnical Data - Paragraph 4

The results of the geotechnical data collection activities shall be mapped and documented in a Geotechnical Report, which shall be summarized in and appended to the *Woodbury Road Roadway Conceptual Analysis Report*. This section shall document existing soil, geotechnical and boring results, included in the Geotechnical Report will be a survey map of the boring locations showing each field boring location, boring identification, state plane coordinates, NAVD 88 elevation, also included a site location map, surveyor's name, license number and date of field location, and shall contain preliminary stormwater/drainage recommendations, including pond siting recommendations, relevant to the project. The stormwater/drainage and pond siting recommendations shall include sufficient area to address excavation materials staging, maintenance berms, fencing, construction easements, constructability, pond slopes and outfall easements in addition to the required stormwater attenuation and storage area.

3. Note the REVISION to Exhibit A, Scope of Services, Section 4.1 as follows:

4.1 Right-of-Way Mapping – Paragraph 1

The Consultant shall prepare a Right-of-Way Identification (I.D.) Map for the entire project area at a scale of 1" = 40' or at a scale approved by the County Project Manager. All survey work shall meet the requirements of Chapter 472, Florida Statutes and Chapter 5J-17 (050, 051, 052), Florida Administrative Code.

The Consultant shall analyze each proposed acquisition to identify the appropriate property interest to be acquired (fee simple right-of-way, drainage easement **including sufficient area to address pond excavation materials staging, maintenance berms, fencing, construction easements, constructability, pond slopes and outfall easements in addition to the required stormwater attenuation and storage area**, fill slope easement, temporary construction easement, temporary demolition easement, etc.). The Consultant shall include identification of the right-of-way required for the multiuse trail within this project. The Consultant shall submit 60%, 90% and 100% progress review submittals of the Right-of-Way I.D. Maps in 11 inch x 17 inch format. Electronic copies in PDF format and a disc containing electronic copies in CAD Autodesk – Civil 3D 2015 shall be provided at 100% submittal.

4. Note the REVISION to Exhibit A, Scope of Services, Section 4.4 as follows:

4.4 Minimization of Compensable Impacts - Paragraph 3

During this phase, the Consultant shall inspect affected properties in the field to determine the extent of compensable impacts on each parcel and whether such impacts can be reduced in a cost-effective manner. Consideration shall, at a minimum, be given to site access, onsite drainage including **sufficient area to address excavation materials staging, maintenance berms, fencing, construction easements, constructability, pond slopes and outfall easements in addition to the required stormwater attenuation and storage area**, onsite parking, onsite utilities, including septic systems, and any other existing facilities impacted by the proposed improvements. This effort shall include meetings with property owners to obtain their input on the configuration of the proposed improvements in those cases where various options exist. The Consultant shall modify the design, where possible, to minimize the number and extent of such compensable impacts and to accommodate property owner preferences where appropriate.

5. All other items, conditions and specifications remain the same.
6. The Bidder shall acknowledge receipt of this addendum by completing the applicable section in the solicitation or by completion of the acknowledgement information on the addendum. Either form of acknowledgement must be completed and returned not later than the date and time for receipt of the bid.
