

December 18, 2018

**BOARD OF COUNTY COMMISSIONERS
ORANGE COUNTY, FLORIDA**

RFP #Y19-132-TJ

DISASTER DEBRIS REMOVAL AND RECOVERY

ADDENDUM NO. 2

This Addendum is hereby incorporated into the request for proposal documents of the project referenced above. The following items are clarifications, corrections, additions are acknowledged with an underline, and deletions are acknowledged with a ~~strike through~~, and/or revisions to and shall be amended as follows.

Clarification: The County has amended the Business Automobile Liability coverage to correct the amount:

Business Automobile Liability - The Vendor/Contractor shall maintain coverage for all owned; non-owned and hired vehicles issued on the most recent version of the ISO form as filed for use in Florida or its equivalent, with limits of not less than \$5,000,000 (~~five hundred thousand dollars~~ five million dollars) per accident. In the event the Vendor/Contractor does not own automobiles the Vendor/Contractor shall maintain coverage for hired and non-owned auto liability, which may be satisfied by way of endorsement to the Commercial General Liability policy or separate Business Auto Liability policy.

Clarification: The County has amended Section 2, Scope of Services Section G. heading to read as follows:

G. ROLE AND RESPONSIBILITY OF DEBRIS MONITORING CONSULTANT CONTRACTOR

Clarification: The County has amended Section 2, Scope of Services Section N. to read as follows:

N. DISPOSAL OF REDUCED DEBRIS

~~When the~~ The County requires chipping/grinding and/or burning as a method of debris reduction, the Contractor shall acceptably dispose of the chips or mulch, at no additional cost to the County. For disposal, the chips, mulch or ash shall be put to some beneficial use, as approved by the County.

Clarification: The County has amended Section 2, Scope of Services Section S. to read as follows:

Discrepancies between the daily report and the corresponding load tickets shall be reconciled no later than ~~500~~ 5:00 p.m. the following work day.

Delete: MULTIPLE AWARD

The County reserves the right to make multiple awards based on the results of this RFP.

ADD: MULTIPLE AWARD

The County reserves the right to award a single contract or multiple Contracts for this service. The County reserves the right to mobilize any or all contractors at its sole discretion, based on determination of need.

Clarification: The County has amended CONTRACT # Y19-132-TJ; ARTICLE 5; PAYMENT AND PERFORMANCE BOND, paragraph two (2) to read as follows:

~~These Bonds shall be in amounts at least equal to the Contract Amount in a sum equal to seven hundred and fifty thousand dollars (\$750,000),~~ shall name the County as obligee and shall be in such form and by sureties of financial standing having a rating from A.M. Best Company (or other equivalent rating company) equal to or better than A- VI and must be included on the approved list of sureties issued by the United States Department of Treasury.

A. Questions and Answers

Question 1: The RFP states that a payment and performance bond requirement exists in the amount of \$750,000.00 (Dollars). Since this is a stand by contract which may never be activated, are the P & P bonds due at the time of signing of the contract or are they due upon activation of the contract?

Answer: The Performance and Payment Bonds is required from the successful Respondent and executed within ten (10) days after receipt of notification from the County of an intended Respondent's award before the Contract can be executed.

Question 2: Although the RFP includes demolition in the pricing schedule, it does not appear to distinguish between standard structural demolition and those containing asbestos (RACM). Can we assume that there will be no RACM demolition or will prices be negotiated upon discovering such structures?

Answer: Prices shall be negotiated at the time upon discovering such structures.

Question 3: The RFP pricing elements include marine debris removal but does not distinguish between water born removal versus land based removal. Can we assume that all marine debris removal will be land based with sufficient access points for the removal operations?

Answer: It will be land base.

Question 4: Freon recovery is typically by the unit versus by the pound. Will the County amend the RFP to comply with FEMA 9580.201 attachment 2?

Answer: We cannot verify the FEMA 9580.201 Attachment 2; therefore, the measurement remains as provided in the RFP.

Question 5: Item 1A requests pricing by mile increments. However, it does not distinguish between C&D and vegetative debris. Can we assume that the pricing is only for Vegetative debris as there is pricing by the ton for C&D in the hourly/daily schedule? If the per ton pricing for C&D is to be used, will the County be willing to use the same mileage incremental schedule as for the vegetation?

Answer: Unit cost shown shall be all inclusive but not limited to pick up, storage, managing, placing, hauling, processing, miscellaneous cost and final disposal except for disposal tipping fees reimbursement when applicable.

Question 6: Hazardous waste (HHW) is typically priced by the pound (See 9580.201 attachment 2). Accountability is extremely limited when by the ton as each stop/location must be recorded and documented. The debris must also be segregated by type/class such as batteries, oil, solvents, paints etc.

Answer: See ATTACHMENT A (Revised) FEE SCHEDULE FORM and submit.

Question 7: We see no entry/request for pricing for electronic waste.

Answer: See ATTACHMENT A (Revised) FEE SCHEDULE FORM and submit.

Question 8: Regarding the Evaluation of the Pricing, does the County intend on only evaluating certain groups of the total estimated cost items? Are items 1-27 going to be the only line items evaluated for the allocation of the 40% weight?

Answer: The County intends to evaluate the Total Estimated Cost Items 1A, 1B, 1C, 1D, 2A, 2B, 2C, 3, and 4 for Selection Criteria weighted at 40%.

Question 9: How will the hourly pricing schedule be weighted in comparison to the unit price schedule. Will the total 40% weight be split between the unit and hourly prices?

Answer: The County intends to evaluate the Total Estimated Cost Items 1A, 1B, 1C, 1D, 2A, 2B, 2C, 3 and 4 for Selection Criteria weighted at 40%. THE ADDITIONAL RATES REQUESTED WILL BE ORDERED AT THE UNIT PRICES PROVIDED SHOULD THEY BE NEEDED BY THE COUNTY. THEY **WILL NOT** BE A FACTOR IN THE EVALUATION OF COST for the 40% Fee Proposal Selection Criteria for evaluating.

Question 10: Will the Other Services section of the pricing be evaluated, if so, how will it be incorporated to the 40% of the evaluation criteria for the Fee schedule?

Answer: The County intends to evaluate the Total Estimated Cost Items 1A, 1B, 1C, 1D, 2A, 2B, 2C, 3 and 4 for Selection Criteria weighted at 40%. THE ADDITIONAL RATES REQUESTED WILL BE ORDERED AT THE UNIT PRICES PROVIDED SHOULD THEY BE NEEDED BY THE COUNTY. THEY WILL NOT BE A FACTOR IN THE EVALUATION OF COST for the 40% Fee Proposal Selection Criteria for evaluating.

Question 11: On the fee schedule form, line items 1B., 1D., 2B., 2C., and 4. include either the words "*Final Disposal*", "*disposal*" or "*disposed*". In Section 2, Scope of Services | Page 9, paragraph M. DUMP/TIPPING FEES the specs state in that "*Dump/tipping fees will be reimbursed at their actual cost with proper documentation, consisting of invoice and signed payment receipt from landfills other than Orange County Solid Waste facilities.*" Can the county please confirm that the terms "*Final Disposal*", "*disposal*" or "*disposed*" are referring to Dumping or Tipping and that the associated Dump Fee or Tipping Fee should not be included by the proposer in these line items?

Answer: This does not include the tipping fees, and should not be included by the proposer in these line items.

Question 12: Will the county be adding a line item for proposer to submit pricing to handle the removal, loading, hauling, of all eligible debris and/or residue from designated work zones directly to an authorized landfill (by passing the TDSRS)?

Answer: No, the County will not be adding a line item for proposer to submit pricing to handle the removal, loading, hauling, of all eligible debris and/or residue from designated work zones directly to an authorized landfill (by passing the Temporary Debris Storage and Reduction (TDSRS)).

Question 13: Can I get a past bid tabulation for RFP Y 19-132-TJ Disaster Debris Removal and Recovery?

Answer: Past bid tabulations can be obtained by visiting <http://apps.ocfl.net/OrangeBids/TermContracts/listtermcontract.asp> or by submitting a formal records request:

1. You can make your request by email to procurementrecords@ocfl.net to obtain copies of records.
2. You can come into the Procurement Division's Office and view/obtain copies.

State the solicitation number and/or solicitation title and what documents you are looking to obtain in your email or provide for a scheduled date when you would like to arrive, so that we can accommodate your visit.

Question 14: Authorized Signatories/Negotiators Form. Our type of organization is a Limited Liability Company. This is not listed as an option. Can we write it in?

Answer: Proposer's are authorized to write in a Limited Liability Company on the Authorized Signatories/Negotiators Form.

Question 15: Please confirm that we do not need to sign the sample contract and submit it with our proposal.

Answer: Proposers do not need to sign the sample contract.

Question 16: When evaluating the proposals, in terms of price, How will Additional Rates (hourly rates and logistic items) be evaluated against Items 1-4 of the Fee Schedule (unit rates for debris removal)? Do they hold any weight in the total assigned forty percentage points towards the pricing schedule? If so, how much weight do they hold? Will you add up all items to form a grand total and use that number to compare?

Answer: The County intends to evaluate the Total Estimated Cost Items 1A, 1B, 1C, 1D, 2A, 2B, 2C, 3 and 4 for Selection Criteria weighted at 40%. THE ADDITIONAL RATES REQUESTED WILL BE ORDERED AT THE UNIT PRICES PROVIDED SHOULD THEY BE NEEDED BY THE COUNTY. THEY **WILL NOT** BE A FACTOR IN THE EVALUATION OF COST for the 40% Fee Proposal Selection Criteria for evaluating.

Question 17: Please confirm that Tipping Fees/Disposal Fees are to be excluded from our proposed rates and treated as a pass through expense whereby the contractor pays disposal fees and invoices the City for reimbursement at direct cost with no mark-up.

Answer: Tipping Fees/Disposal Fees shall be direct pass through with no mark up permitted.

Question 18: The scope of work dictates that the debris resulting from the removal of hazardous trees and hanging limbs will have a unit rate per tree which includes hauling the resulting debris to DMS or final disposal site. This would require collection trucks to follow the tree removal crews and ONLY pick up debris from their work, thereby skipping piles of debris and leaving it on the street to be picked up by another collection truck. If there is a major event, collection trucks will be more efficiently used if they

could travel the ROW and pick up ALL debris rather than skipping piles and only following the tree crew. This also means that all resulting debris will have to be staged separately at the DMS to insure no comingling of debris is allowed. There will be a need for additional equipment to manage the site segregated for hazardous tree work or there will be lost time in moving equipment between the two areas. Limited Debris Management Sites, their size and locations often make this scenario extremely difficult. The typical method is to price hazardous trees and hanging limbs as a “cut only” rate and to place the resulting debris in the ROW for collection as vegetative debris. This method frees up collection trucks and expedites the collection process. Will the County consider changing the scope to allow for the debris from removing hazardous leaning trees and hanging limbs to be placed in the ROW to be collected and paid for as regular vegetative debris?

Answer: All leaners and hangers must properly be documented—to include pictures and should be separated. This will require a separate operation from the debris removal process and generally will be done following the right of way debris removal.

Question 19: The reduced vegetation can be used by waste to energy plants and as ground cover at landfills. Market forces dictate the demand for the wood chips and there is limited space to stockpile the mulch. Should the market for wood chips dissolve and we are forced to dispose of the wood chips as regular vegetative debris at a landfill will the tipping fees be reimbursed by the County? Please confirm the County will reimburse disposal fees should mulch have to be taken to landfill as regular debris.

Answer: Yes, the tipping fees will be reimbursed. Yes disposal will be at the dumping fee schedule at prior approved disposal sites.

Question 20: Line item 1B from the Fee Schedule regarding the citizen site storage – When the County stipulates that the debris is to be processed; does the County expect the debris to be reduced at the Citizen site storage location?

Answer: No, it will be removed to the TDSR and reduced along with other debris.

Question 21: Will any contractors awarded a contract be required to respond to any current disasters or disasters occurring in 2019. If there will be assignments to current disasters, is the 6hr/24hr response time still applicable?

Answer: Contractors will be notified as to when to report and the 6hr/24 hr response will be counted from there. Contractors will be expected to adhere to the terms of the contract once selected and awarded and contracts are executed. These contracts will be awarded prior to the start of the 2019 hurricane season.

ACKNOWLEDGEMENT OF ADDENDA

- a. The bidder shall acknowledge receipt of this addendum by completing the applicable section in the solicitation or by completion of the acknowledgement information on the addendum. Either form of acknowledgement must be completed and returned not later than the date and time for receipt of the bid.

- b. Receipt acknowledged by:

Authorized Signer
