B. Questions & Answers:

1. Regarding the requirement for the PRIME to be a licensed Professional Engineer in the state of Florida for this specific project. This project as you know is an Escalator replacement project. Having done many of these, I am requesting that a C.E.I. (Certified Elevator Inspectors) license in the State of Florida be considered equal substitution of a Professional Engineer License for this specific project as it is more applicable given the actual technical qualifications necessary to fulfill the RFP scope of work.
