**BOARD OF COUNTY COMMISSIONERS
ORANGE COUNTY, FLORIDA
IFB #Y19-1135-PD, SUPPLEMENTAL CARBON FOR EASTERN REGIONAL WRF
TERM CONTRACT**

ADDENDUM NO. 2

A: Questions and Answers for the above Invitation for Bids is as follows:

Question: On Page #41 “Reference Documentation Form,” asks to list 3 references but has the number (5). How many references need to be provided and can you clarify what “substantially similar” means. Specifically, do these references need to be for WasteWater supplemental carbon? Do you only want Municipal references?

Answer: This has been addressed in Addendum 1. Use the revised reference pages provided in Addendum 1.

Question: On Page 31, “Scope Of Work.” In Paragraph C and under number item 1. The bid documents state that the COA needs to be from a NELAC certified lab and delivered with each load. It’s impossible to have a sample sent to a 3rd party lab and verified the same day as a delivery. Since none of the suppliers of this chemistry have a NELAC certified lab, please remove this requirement. We have 14 degreed chemists that use industry best practices and ASTM laboratory testing methods. Plus the Bid documents reference that the County will be checking COD content and prorating any delivery that is deficient. We currently supply the largest users of supplemental carbon in the State of Florida. Not one of them have required this certification. If the County does not remove this NELAC certification requirement, then please at least change the time frame that the COA is due. It will likely require 7-10 days.

Answer: This has been addressed in addendum 1. The Specifications/Scope of Work have been revised and included in Addendum 1.

All other specifications, terms and conditions remain the same.
