

July 17, 2018

**BOARD OF COUNTY COMMISSIONERS  
ORANGE COUNTY, FLORIDA**

**IFB #Y18-1053-KB  
RECYCLING AND WASTE DISPOSAL SERVICES**

**ADDENDUM NO.4**

This addendum is hereby incorporated into the Invitation for Bids document. The following items are clarifications, corrections, additions, deletions and/or revisions to and shall take precedence over the original documents. Deletions are denoted by ~~strike through~~ and additions via underline.

1. The **BID PROPOSAL FORM IFB #Y18-1053-KB** is replaced in its entirety with **REVISED BID PROPOSAL FORM IFB #Y18-144-KB pages 1 through 13** attached herein.
2. The **ATTACHMENT A FORM IFB #Y18-1053-KB** is replaced in its entirety with **REVISED ATTACHMENT A FORM IFB #Y18-144-KB** attached herein.
3. **DELETE ITEMS AND REPLACED WITH:**

**10. RECYCLING SERVICES**

~~A. Orange County has established a "Single Stream" or "Co-mingling" recycling program that includes materials that are regularly produced in an office employment environment.~~

~~1. Contractor shall not be responsible for internal recycling containers. These items include:~~

- ~~• Paper Products, including cardboard boxes, tubes, folders and packaging~~
- ~~• Corrugated containers~~
- ~~• White and colored ledger~~
- ~~• Computer printouts~~
- ~~• Copy Paper~~
- ~~• Envelopes, with or without windows~~
- ~~• Manila, white, or pastel colored file folders~~
- ~~• Laser printed paper~~
- ~~• Self-adhesive note pads~~
- ~~• Newspapers and inserts~~
- ~~• File Stock~~
- ~~• Magazines, books and telephone books~~
- ~~• Metal, plastic, and glass food and beverage containers including but not limited to:~~

- ~~Aluminum beverage cans~~
- ~~Steel and tin cans~~
- ~~Poly coated, aseptic and gable top containers~~
- ~~Glass bottles and jars~~
- ~~Plastic bottles and jugs~~

~~2. Contractor shall accept bagged recyclables. These recyclable materials may be handled, bagged or un-bagged, by Orange County staff or contracted janitorial vendors and placed in the external containers, to be provided by the Contractor at the locations listed herein. Shredded office paper may be placed into the external recycling bins without additional processing or packaging.~~

~~3. The bodies of vehicles used in the collection or transportation of recyclable materials shall have beds of metal or impervious material that can be cleaned to prevent contamination.~~

~~Routine/weekly recycling services shall be invoiced monthly.~~

## **10. RECYCLING SERVICES (REVISED)**

### **A. Recycling Program**

1. Orange County has established a "Single Stream" or "Co-mingling" recycling program that includes materials that are regularly produced in an office employment environment.

These items include:

- PLASTIC
  - Bottles and containers labeled #1 - #5
- METAL
  - Tin, aluminum, steel, and empty aerosol cans
- GLASS
  - Bottles and jars
- CARDBOARD
  - Flattened corrugated boxes
- PAPER
  - Newspapers and advertisements
  - Paper bags
  - Junk mail
  - Magazines and catalogs
  - Office/note paper
  - Phone books
  - Cereal/shoe/drink boxes

- Milk/juice cartons

▪ **PLASTIC BAGS WILL NOT BE ACCEPTED.**

At the discretion of Orange County, in accordance with industry practices and specifications, the list of approved recyclable materials is subject to change via an amendment.

2. Contractor shall not be responsible for internal recycling containers.
3. The County will make efforts to prevent plastic bags from entering the recycling containers. The Contractor shall report to the Contract Administrator all instances of plastic bags and/or bagged recyclables sited in recycling containers. This will be addressed internally with these locations.
4. Shredded office paper may be placed into the external recycling bins without additional processing or packaging.
5. The bodies of vehicles used in the collection or transportation of recyclable materials shall have beds of metal or impervious material that can be cleaned to prevent contamination.

Routine/weekly recycling services shall be invoiced monthly.

4. **ADD ITEM**

B. **SECTION 3: SPECIFICATIONS / SCOPE OF SERVICE - RECYCLING SERVICES - Reporting Requirements #3 page 44:**

3. Quarterly reports are due to the Contractor Administrator no later than the 15th day following the end of each quarter (three months). The quarterly report shall include data from the three previously month reports (per month) and a cumulative total, summary of data.

Reports shall include (if applicable):

- Facility location of container as listed on delivery order
- Address of facility
- Container #
- Weight of Recycling
- Container Size

**The following are questions and answers in accordance with Addendum #2 dated June 4, 2018:**

5. **Question:** The Contractor shall provide credit for down or out of service equipment due to mechanical reasons equal to the rental charge on a day-by-day

basis. If the Contractor removes equipment from a location, a "like" replacement shall be provided within eight (8) hours of equipment removal. If the compactor is fixed quickly and is only down for 2 hours for example, how much credit does the Contractor have to provide? Is there an hourly rate?

**Answer:** This language only applies if the compactor is down for more than eight (8) hours. This language is not applicable at two hours; however, the contractor is responsible for ensuring that there is no disruption of the County's normal operation which may include, but is not limited to, providing back-up containers and services to prevent this.

6. **Question:** Will Orange County consider excluding poly coated, aseptic and gable top containers and glass bottles and jars from the allowable recyclable materials? These are not items typically generated in high quantity and the market for these materials is not as strong.

**Answer:** Please see the revised recycling contract language above.

7. **Question:** Will Orange County consider excluding plastic bags from the recycling? Plastic bags cause the gears to jam at the recycling facility and are considered trash. Many customers choose to use plastic trash bags internally and then open the bags and pour the recyclable materials into the recycling container. Then, they place the plastic trash bag in the trash.

**Answer:** Please see the revised recycling contract language. Efforts will be made to prevent plastic bags from entering recycling containers. The Contractor shall report locations that are not in compliance to the Contractor Administrator.

8. **Question:** Can the Contractor add contract language to allow the contract to be canceled if there continues to be excessive recycling contamination over a prolonged period of time after the Contractor has informed Orange County of the recycling contamination?

**Answer:** There are no changes to the contract language. The contractor shall report excessive recycling contamination to the Contract Administrator. This will be addressed internally with those locations.

9. **Question:** Can the Contractor provide industry acceptable estimated weights based on container size in lieu of actual weights?

**Answer:** Please see the revised recycling contract language. Container size shall be included as part of the reporting requirements in Section 3: Specifications / Scope Of Service - Recycling Services - Reporting Requirements #3 Page 44.

10. **Question:** Page 43, B. 2- "The contractors MRF shall be capable of processing co-mingled household recyclables, alongside more segregated streams by using separate in-feeds lines." Does this statement requires the contractor to own the MRF or must use a MRF, which meets all stated requirements?

**Answer:** No, the Contractor does not have to be the owner of the MRF. The MRF shall meet the standards for the Material Recycling Facility (MRF) as outlined on Page 42, Section B – Material Recycling Facility (MRF) #3.

11. **Question:** May we have copies of all required reports for the past year which were submitted to County from all current providers? Even if there are changes between contracts, this will help us determine weighs by locations and size of containers as required reports are required to provide this information.

**Answer:** Please see the attached Recycling Weight report. The current contractor is not required to provide reports for Solid Waste.

12. **Question:** May we have a copy of the most recent previous six months of invoices and remittances from all current providers?

**Answer:** Invoicing information can be obtain via Public Records by e-mail at [PublicRecordsrequest@ocfl.net](mailto:PublicRecordsrequest@ocfl.net) note there may be a fee associated with duplication of records. The current contract rates are available on-line at: <http://apps.ocfl.net/OrangeBids/Termcontracts/listtermcontract.asp?ID=128522&CT=application/pdf&FN=Y16-157.pdf>

13. **Question:** Can the question deadline be extended? Usually when there is only one addendum with answers from submitted question there is no means to request clarification of answers and answers usually will generate additional questions.

**Answer:** No. This procurement does not have multiple question periods.

14. **Question:** Attachment A - Container Size/Pick-Up Frequency schedule- Lot A- Countywide Facilities- Solid Waste. This attachment is missing container size. Please provide an updated Attachment A.

**Answer:** Revised Attachment A – Container Size/Pick-Up Frequency Schedule has been revised to reflect container sizes for each Lot.

15. **Question:** Please state what facilities are being used by current Contractors for each type of material.

**Answer:** The current contractor services all facilities listed in the attachments and provided both recycling services and waste collection and disposal.

16. **Question:** Page 68, bottom six lines does not match pages 58- 68.

**Answer:** The (Revised) Bid Response Form is attached herein.

17. **Question:** On the Bid Response form, pages 58-68, there is a section for roll-off (compactor/open -top) containers for rental fees, and disposal fees. Where are the fees for collection?

**Answer:** There is no separate fee for collection, this is included in the 'As-Needed (Pickup/Pull) fees that are listed on the Bid Response under Container

Services. Disposal fees are listed on the Bid Response form under the section marked Disposal Fees and consist of Green/Yard Waste, Rubbish & Wet/Food Waste, Construction and Demolition Debris, and Tires.

18. **Question:** On the Bid Response form, 58 - 68, there are no line items for disposal fees for sludge.

**Answer:** The container description is changed to reflect a 15 cu yd dumpster. These dumpsters are used to carry normal trash and construction type debris. Disposal fees are according to the bid response form.

19. **Question:** What is the time period between intent to award and award?

**Answer:** The County is requesting an irrevocable offer for (90) days with the intent to post award and award made during that time period.

20. **Question:** What is the time period between award and insurance of delivery order?

**Answer:** The timeframe between contract award and delivery order issuance is usually ten days but may vary depending on the department. Each department using this contract is responsible for issuing a separate DO for their sites (Ex. Facilities Management, Fire Rescue, Utilities, Parks and Recreation, Corrections, and Public Works). The awarded contractor will meet with the County after contract award to discuss this process in detail.

21. **Question:** Contractor is responsible for cost associated with background checks, will contractor have sufficient time to complete after notice of intent to award?

**Answer:** The Contractor will begin these upon award of the contract and should complete these during the transition phase.

22. **Question:** Are there any locations that have more than one dumpster and or locations with containers and carts?

**Answer:** Most locations will have only one dumpster and a recycling container. Example, Parks and Recreation (Lot B) has multiple locations with two dumpsters; please see the attached Container Size/Pick-Up Frequency Schedules.

23. **Question:** Are there any facilities going on the weekends? If so, can we look to upsize or add additional container?

**Answer:** Yes, there are some locations with weekend service. Discussions of upsizing containers and changing schedule will occur after contract award. The awarded contractor will have the opportunity to meet with the user departments to review frequencies and container sizes. The County departments reserves the right to keep existing service and container sizes and/or make changes according to County's business operational requirements.

24. **Question:** Are the days of collection set in stone or will we be able to work with county staff at locations to mutually agree?

**Answer:** The awarded contractor will have an opportunity to discuss pick-up schedule with the appropriate departments after contract award. Due to the County's business operational requirements for different sites, the County reserves the right to set/enforce the pick-up frequency schedule as deemed necessary.

25. **Question:** What if any are the Holiday pickups?

**Answer:** If a holiday occurs on a scheduled service day, the Contractor is required to service the day before or the day after the scheduled service day/holiday. Communication is key with the user departments. The Contractor shall verify pick-up schedule with the user departments at minimum ten business days prior to holidays. Failure to do so may result in missed pick-up and unsatisfactory service documentation/fees

26. **Question:** Will we be paid for extra service if containers are overfilled or material is outside of the containers?

**Answer:** Page 45, Section 11-D addresses additional service requests. Page 38, Section 7-B, services under this contract include, but are not limited to, the picking up of overflow waste and recyclable items around containers during routine services and when the normal schedule for pickup is not maintained. The Contractor shall communicate reoccurrences to the user departments along with recommendations to address the issue, which may result in changes to frequency schedule and container sizes.

27. **Question:** Is the contractor required to open/unlock gates if any at entrances or at dumpster enclosures?

**Answer:** This will be dependent on the user department. Options may include providing access to these areas and changes to pick-up times. Decisions made by the user departments will be in the best interest of the County.

28. **Question:** Is the contractor required to pay disposal for solid waste collections?

**Answer:** Page 41, All pricing for waste disposal and other fees shall be per the pricing the bid response form, regardless of landfill utilized by the Contractor.

29. **Question:** Where the current recycling that is collected is being processed, is there currently a processing fee and if so who pay's this? Contractor or county?

**Answer:** The County reimburses the current Contractor for fees listed on the Bid Response form for non-routine and container rental services only. Routine scheduled pick-up are those described on the Bid Response form under the Solid

Waste and Recycling sections and are inclusive of all fees, including but not limited to, container, hauling, and disposal.

30. **Question:** Is recycling currently being weighed at each location, and how is the current contractor recording; does each collection truck have a scale?

**Answer:** Per the current contract and this Invitation for Bid “To facilitate calculation of pick-up weights/volume, the Contract Administrator and the Contractor will use a mutually agreed upon table of container capacities, percentage of filling, and corresponding estimated weights”. The County cannot confirm if each collection truck has a scale because this is not a contract requirement.

31. **Question:** On page/s 58 - 68- Could you please provide the quantity of containers/dumpsters?

**Answer:** This information has been included in the Revised Attachment A - Container Size/Pick-Up Frequency Schedule.

32. **Question:** Attachment A – Lot A – Could you please provide quantity and size of containers/dumpsters?

**Answer:** This information has been included in the Revised Attachment A - Container Size/Pick-Up Frequency Schedule.

33. **Question:** Is the contractor allowed to OCSW Transfers for MSW?

**Answer:** Per the contract requirements. “The County Solid Waste Division shall be contacted and shall have first right of refusal prior to using an alternate facility. In the event a County owned disposal facility is not available, an appropriately permitted alternate facility may be used. A Waste Landfill Florida Permit shall be provided for Non-Orange County landfill in accordance with Orange County Code Section 32-214 (a) (1).“

34. **Question:** Could you provide tonnage collected for the entire year 2017, for each waste stream that is tracked (refuse and recycling)?

**Answer:** Tonnage collection for Recycling is attached. The current contract does not require tracking of solid waste tonnage.

35. **Question:** Could you provide tonnage reports, by day and by truck identification or load identification for the entire year 2017, for each waste stream that is tracked (refuse and recycling)?

**Answer:** Tonnage collection for Recycling is attached. The current contract does not require tracking of solid waste tonnage.

36. **Question:** Could you please provide a copy of the current contract, any amendments, and last six months’ invoices?

**Answer:** The current contractor for both waste and recycling services is Disposall, Inc. The contract number is Y16-157- Recycling and Waste Disposal Services. A copy of the contract including all amendments is currently of the Orange County website using the following link:

<http://apps.ocfl.net/OrangeBids/Termcontracts/listtermcontract.asp?submitted>

Invoicing information can be obtain via Public Records by e-mail at [PublicRecordsrequest@ocfl.net](mailto:PublicRecordsrequest@ocfl.net) note there may be a fee associated with duplication of records. The current contract rates are available on-line at:

<http://apps.ocfl.net/OrangeBids/Termcontracts/listtermcontract.asp?ID=128522&CT=application/pdf&FN=Y16-157.pdf>

37. **Question:** Could you please provide who is the current provider?

**Answer:** The current contractor for both waste and recycling services is DisposAll, Inc. The contract number is Y16-157- Recycling and Waste Disposal Services. A copy of the contract and contractor contact information is currently of the Orange County website using the following link:

<http://apps.ocfl.net/OrangeBids/Termcontracts/listtermcontract.asp?submitted>

38. **Question:** Could you please provide the current collection routes (daily number of trucks of each size, type, etc.)?

**Answer:** The current frequency schedule is attached. For more information such as daily number of trucks and truck size, type, etc., we do not require the current contractor to provide this information.

#### ACKNOWLEDGEMENT OF ADDENDA

a. The bidder shall acknowledge receipt of this addendum by completing the applicable section in the solicitation or by completion of the acknowledgement information on the addendum. Either form of acknowledgement must be completed and returned not later than the date and time for receipt of the bid.

b. Receipt acknowledged by:
